

TBILISI **MALL**

## **Cleaning the Exterior Facade of "Tbilisi Mall"**

## ***1. General Information***

The **Tbilisi Mall** building is located at the 16th kilometer of **David Agmashenebeli Highway**.

There is an existing requirement to clean the facade of the mall, specifically:

- **Alucobond facade**
- **Glass facade**
- **Balconies with glass railings**
- **Ceramic granite walls**
- **Domes (3 units)**
- **Skylights on the roof**

## **2. Work Execution Schedule**

The contractor must provide a detailed schedule for the execution of work, specifying the planned timeline for different sections of the facade:

- **Eastern facade**
- **Western facade**
- **Northern facade**
- **Southern facade**
- **Roof**

The proposal should also include an explanation of what type of auxiliary equipment will be used for each facade, such as **crane baskets, scaffolding**, etc. The cleaning operations should not disrupt the mall's functionality.

Prior to commencement, a **Work Notification** form must be completed, specifying:

- **Names and surnames of the working personnel**

- Equipment to be used
- Any other relevant information

The working hours must be coordinated daily with the **mall administration**.

### **3. Safety Regulations**

- All work conducted within and around the mall must comply with **labor and personal safety standards**, requiring the use of **necessary personal protective equipment (PPE)**. Failure to adhere to these standards will result in **work suspension**, with full responsibility resting on the contractor.
- Before beginning the work, the **mall's safety manager** will provide contractors with comprehensive guidance on safety protocols.
- Work will only be permitted once the necessary **documentation** has been signed by the working personnel and the **mall's safety manager**.

#### **Notes:**

- All work must be performed with **high quality and professionalism**.
- The cleaned surfaces **must not have stains** left behind.
- The **facade structure must not be damaged**.
