

This architectural section drawing illustrates a building's internal structure, including a sloped roof and a basement. The drawing is oriented with grid lines 1 through 17 at the bottom. Key features and dimensions include:

- Roof Structure:** The roof is shown with a slope of 17.5%. The structural profile of the roof is detailed with various dimensions, including a total width of 5001 and a height of 5000.
- Basement Level:** The basement floor finish is at -25,000, and the structural level is at 718.00. The drawing shows the foundation and basement walls.
- Structural Elements:** The drawing includes details of beams, columns, and floor slabs. Dimensions for these elements are provided, such as a column height of 5000 and a beam width of 3346.
- Annotations:** The drawing includes various annotations, including a 17.5% slope indicator, a 17.5% slope indicator, and a 17.5% slope indicator.

Technical drawing of a building section showing a sloped roof structure. The drawing includes various dimensions and annotations:

- Dimensions:**
 - Horizontal dimensions: 5500, 2929, 410, 5092, 2862, 412, 3000, 3000, 3000, 1600, 2580.
 - Vertical dimensions: 2929, 410, 5092, 2862, 412, 3000, 3000, 3000, 1600, 2580.
 - Roof slope: 62.08%.
 - Roof thickness: 185, 155, 300.
 - Roof width: 300.
 - Roof height: 8000.
- Annotations:**
 - Roof slope: 62.08%.
 - Roof thickness: 185, 155, 300.
 - Roof width: 300.
 - Roof height: 8000.
- Other features:**
 - A vertical red dashed line is present on the left side.
 - A horizontal blue line is present at the bottom left.
 - A horizontal black line is present at the bottom right.
 - A vertical black line is present on the right side.
