

TECHNICAL SPECIFICATION

TECNOCAR E613 – Cabin / Interior Air Filter

Equivalent to MANN-FILTER CU 2218 family

1. Product Identification

Manufacturer	TECNOCAR
Part Number	E613
Product Type	Cabin / interior air filter (pollen / particulate filter)
Reference Filter	MANN-FILTER CU 2218
Primary OE Reference – Mercedes-Benz	000 830 75 18 / A 000 830 75 18
Primary OE Reference – MAN	88.77910-0003 / 88779100003

2. Technical Specifications

Parameter	Specification
Filter category	Cabin / interior air filter
Filter execution	Fine particulate / pollen filter
Length	220 mm
Width	150 mm (catalogued equivalent dimension)
Height / thickness	20 mm
Nominal dimensions	220 × 150 × 20 mm

Application	Commercial vehicle HVAC / cabin ventilation
-------------	---

3. Equivalent / Replacement Filters

Manufacturer	Part Number	Dimensions	Cross-reference / status
MANN-FILTER	CU 2218	220 × 150 × 20 mm*	Direct cross-reference
HENGST	E1958LI	220 × 150 × 20 mm	Direct cross-reference
MAHLE / KNECHT	LA 910	220 × 150 × 20 mm	Direct cross-reference
FILTRON	K 1344	—	Direct cross-reference
UFI	53.448.00	—	Cross-reference
SOFIMA	S 3448 C	—	Cross-reference
BOSCH	1 987 431 211 / M 1211	—	Cross-reference
CORTECO	21653018 / MP258 / CP1123	—	Cross-reference
DENSO	DCF185P	—	Cross-reference
DONALDSON	P787437	—	Cross-reference
WIX FILTERS	WP10240	—	Cross-reference
FEBI	31042	223 × 150 × 20 mm	Cross-reference; dimensional variation reported
VALEO	716047 / 997344B	—	Cross-reference
VEMO	34-30-2005 / V34-30-2005	—	Cross-reference

* Published catalog data for the MANN/HENGST/MAHLE family commonly gives 220 × 150 × 20 mm. The exact dimensions of the physical TECNOCAR E613 should be verified against the sample before bulk procurement.

4. OE / Vehicle References

Known OE references: Mercedes-Benz 000 830 75 18 / A 000 830 75 18; MAN 88.77910-0003 / 88779100003; Neoplan 88779100003.

Known vehicle/application groups include MAN, Mercedes-Benz and Neoplan commercial vehicles. Final fitment should be confirmed by OE number or the vehicle's VIN/application.

5. Procurement Notes

- The TECNOCAR E613 is identified from the product label visible in the supplied photograph.
- The strongest replacement references are MANN-FILTER CU 2218, HENGST E1958LI and MAHLE LA 910.
- For procurement, specify both the filter part number and the OE references to reduce the risk of receiving a visually similar but incompatible filter.
- Before ordering a large quantity, verify dimensions, frame/gasket configuration and airflow direction against the installed filter.
- This document is a technical cross-reference, not a vehicle-specific fitment certificate.

6. Reference Sources

- TECNOCAR Online Catalogue – manufacturer catalogue and product range.
- Hengst E1958LI product data – 220 × 150 × 20 mm and OE/cross-reference data.
- MAHLE LA 910 product data – 220 × 150 × 20 mm and cross-reference data.
- FILTRON K 1344 cross-reference data – includes TECNOCAR E613, MANN CU 2218, Hengst E1958LI, MAHLE LA 910, UFI 53.448.00, SOFIMA S 3448 C and other equivalents.
